Vehicle Usage Guidelines, Warranty Terms & Safety Instructions

Dear Customer,

Thank you for placing your trust in VK EV MOTORS. To keep your vehicle safe, efficient, and long-lasting, please read the guidelines below carefully.

Safe Driving

01. Always ride at **Economy Speed (25 Kmph)** only — this improves mileage and extends Battery life.
02. Do not accelerate suddenly — it draws more current and reduces mileage.
03. Mileage naturally drops on rough/bumpy roads — this is normal, not a defect.
04. Before buying a vehicle, always take a trial ride and inspect it thoroughly.

Battery Care

05. Always park the vehicle in shade or a cool location only.
06. Use a cover to protect the vehicle from rain and sun — if the **Battery** gets wet, **the warranty becomes void**.
07. Fully charge the Battery once every **10–15 days**, even if the vehicle is not in use.
08. Make sure the Battery charge never drops below **2 bars**.
09. Battery capacity naturally decreases over time — 12% in Year 1, 26% in Year 2, 36% in Year 3. This is not a defect.

Charging Instructions

10. Do not plug in for charging immediately after a ride — wait at least **1–2 hours** first.
11. Never charge the vehicle while it is out in the rain or sun.
12. Charge only with the **Original Charger** supplied by the company — using any other Charger **voids the warranty**.
13. Unplug the Charger as soon as the Battery is fully charged.

Service & Maintenance

14. Check tyre air pressure once every **15 days** without fail.
15. Bring the vehicle in fully charged, between **9:00 AM – 11:00 AM**, for any Service.

16. Do not leave any valuables in the storage compartment (dicky) when handing over the vehicle for Service.

17. Whoever drops the vehicle off for Service must be the one to collect it back.

18. Service will not be available for **10 days** before festivals such as Ugadi and Dussehra.

19. **Door Service** is available within a **10 km** radius for senior citizens above 65 years and differently-abled customers.

20. A visiting charge of **₹499 + GST** applies within a 10 km radius.

📋 Warranty Terms

21. Warranty applies only to the Battery, Motor, Controller, and Charger:

Component	Warranty Period
Graphene Battery	**1 Year Warranty**
Lithium Battery	**2 Years Guarantee + 1 Year Service**
Controller	**1 Year Warranty**
Charger	**1 Year Warranty**

22. Keep the original bill safe — without the bill, **the warranty is not valid**.

23. In a Warranty claim, the customer must bear transport/courier charges and Service charges.

24. If any third party or unauthorized person opens the vehicle, **the warranty becomes void**.

25. Replacing a spare part may take **4–8 weeks**.

26. Warranty applies only to the original purchaser — it does not apply to second-hand buyers.

27. Warranty does not cover loose parts, screws, rust, fire damage, or water damage.

Customer Declaration

Customer Name _____ Vehicle Model _____

Invoice Number _____ Delivery Date _____

Chassis Number _____

Battery Type: ☐ Gel ☐ Graphene ☐ Lithium

I have read and understood the above guidelines and warranty terms, and I hereby agree to them.
